

Personal profile

Mr. Sergio Persoglia

Institution

Istituto Nazionale di Oceanografia e di Geofisica
Sperimentale – OGS

Sergio Persoglia has been an **ENeRG President** in **2001, 2010** and he is the **ENeRG President 2020**.

Sergio Persoglia has joined the **OGS** (Italian National Institute of Oceanography and Applied Geophysics) in 1981, where he has been a head of a team for R & D in Seismics, Director of the Department Geophysics of the Lithosphere, Advisor to the OGS President, Director for International Collaborations and, after retiring, member of the OGS Board of Directors.

Expert in seismic data collection and processing, he has been scientific and/or operative responsible for OGS in many national programs (Deep Crust in Italy and the Geophysical Surveys in the Seas around Antarctica) and European projects (among which **Castor, IncaCO2, CO2GeoNet, CO2ReMoVe, Geocapacity, RISCS, CO2Care, SiteChar, CGS Europe** and **ECCSEL**) dealing with the geological storage of CO₂.

Sergio Persoglia has been Network Manager of the European Network of Excellence on the Geological Storage of CO₂, and is now **Secretary General of the CO2GeoNet**, a legal research association with 29 institutes from 20 European countries.

Member of the Italian delegation to **CSLF** (Carbon Sequestration Leadership Forum), he has been coordinator, until November 2012, of the **Joint Programme on CO₂ Geological Storage of EERA** (European Energy Research Alliance).

Mr Sergio Persoglia holds a master degree in Electronic Engineering of the University of Trieste, Italy.
