

Personal profile

Prof Bruno Saftic

Company

Sveuciliste u Zagrebu - Rudarsko-geolosko-naftni fakultet

(University of Zagreb - Faculty of Mining, Geology and Petroleum Engineering)

Born in Zagreb 27.06.1964, in 1989 he graduated in Geology of Mineral Resources and Applied Geophysics at the University of Zagreb. Since 1989 he is affiliated with Faculty of Mining, Geology and Petroleum Engineering, since 2003 as associate professor. He teaches various courses in the fields of petroleum geology, coal geology, seismic stratigraphy etc.

In 1993 he defended MSc Thesis „Depositional System of Sandstone Reservoirs of the Genetic Stratigraphic Sequence Poljana in the Neogene Sediments of the Zutica Field“ and in 1998 he defended PhD Thesis „Genetic Stratigraphic Sequence Analysis of the Pontian Sediments in the Western part of the Sava Basin“ (done at Faculty of Mining, Geology and Petroleum Engineering and in Croatian national oil co. INA Industrija nafte d.d., Naftapljin, Zagreb). Mentors: Prof. Dr. Josipa Velic and Dr. Jozef Simon.

Croatian representative in ENeRG since 2000, he took part in two three FP6 projects, all related to geological storage of carbon dioxide (CASTOR, EU GeoCapacity and CO2NET EAST). He is also active in CO2GeoNet, as a member of Scientific Advisory Board.
