

# Personal Profile

**Mrs Marjeta Car** (Slovenia)

## Company

Geoinzeniring d.o.o

Mrs Car has a degree in Geological Engineering of the University of Ljubljana and holds a qualification of European Engineer issued by FEANI. She is currently a Head of the Department of Engineering Geophysics at Geoinzeniring Ltd and is active as a Senior Expert. She is licenced as a Certified Engineer at the Slovenian Chamber of Certified Engineers IZS.

She has more than 30 years of professional experiences in engineering geophysics in various areas (geo-energy, engineering geology, hydrogeology, geological structure and tectonics, soil and rock mechanics, thermal water resources, mitigation of geo-hazard, underground natural gas storage, environmental protection studies etc.). For more than 25 years she has managed applied and geo-scientific projects.

She has over 15 years of experience as geo-scientist in geological storage of CO<sub>2</sub> and has been involved in various previous international CCS related projects. As such, she acts as a leading knowledge transfer body for geological storage of CO<sub>2</sub> in the country. CO<sub>2</sub> storage site characterisation, monitoring and verification, and utilisation of the deep subsurface is of her particular interest.

She acted as an external advisor to several B.Sc., M.Sc. and Ph.D. students on geophysical engineering and geological storage of CO<sub>2</sub> topics. She also gives lectures on CCS to geology students at the University of Ljubljana.

She is a reviewer to several national and international journals and an evaluator to research agencies. She is a national representative in European Network for Research in Geo-Energy - ENeRG and in European Network of Excellence on Geological Storage of CO<sub>2</sub> - CO<sub>2</sub>GeoNet. She is a member of professional associations such as Slovenian Geological Society SGD, Slovenian Association of Geodesy and Geophysics SZGG and Slovenian Chamber of Certified Engineers IZS.
