

Personal profile

Profile Dr. Kazbulat Shogenov

Company

Department of Geology at Tallinn University of Technology

Dr Shogenov is an ENeRG developer and manager of the ENeRG website in 2008–2011 and 2018-2022 and manager of the GEO ENeRG Newsletter in 2012-2017. Kazbulat Shogenov was an author of the ENeRG rebranding in 2021.

Dr Shogenov is a Researcher at the Department of Geology at Tallinn University of Technology (TalTech) and founder and president of the SHOGenergy consulting company. Since 2003 Dr Shogenov has been a member of Estonian and international research projects, including the EU-FP6 projects EU GeoCapacity, CO2NetEast and EUFP7 projects CGS Europe, CO2Stop and ESTMAP and H2020 project ENOS. Dr Shogenov is an author of more than 60 scientific publications. She has multidisciplinary research interests in the field of sedimentary geology including, geophysics, petrophysics, reservoir and cap rock properties, geochemistry, mineralogy, diagenetic processes, CO₂ geological, hydrogen and energy storage and CO₂ use, as well as in e-Learning technologies.

At present Dr Shogenov is a leader of the TalTech team in the ERASMUS+ project CIRCEXTIN and participant of Horizon 2020 projects CLEANKER and HyStories, Swedish Institute project RouteCCS.

He is an invited session convener and abstracts reviewer (Rock physics, petrophysics, geophysics, CCS, CO₂-EOR, geomodelling) 2010-2022 of the EAGE Conference & Exhibition (European Association of Geoscientists & Engineers) and invited reviewer of MDPI journal (Geosciences, Minerals, Processes), Springer Nature journal (Natural Resources Research, International Journal of Earth Sciences) and De Gruyter journal (Environmental and Climate Technologies).

Dr Shogenov was graduated from the Tallinn University of Technology (TalTech) as a Geotechnical Engineer- Petrophysicist and has a PhD Degree in Petrophysical modelling of CO₂ Geological Storage in the Baltic Countries.
